COACHING OVERVIEW

INTERVIEW SKILLS

It's a Skill, Not a Talent. And You Can Learn It.

INTERVIEW SKILLS COACHING

Our industry-leading coaching focuses on essential mindset change to ensure that you have insightful conversations. Our philosophy encourages applicants to go in with the mindset of a consultant. Someone who has the experience to add value to the business and is ready to ask important questions, work with others, and get results. We'll teach you to maintain your cool demeanor even when nervous and under pressure (Did you know that functional IQ can drop 8-9 points if you're nervous?)

With our *Interview Skills* coaching program, participants will learn how to turn interviews into meaningful conversations that show off their experience while also providing immediate value. Interviewing is a skill and a process, and we'll ensure that you will improve.
